

JRC Dataset

Floods in Peru (2017-03-22)

Description:

Activation time (UTC): 2017-03-22 10:08:00
Event time (UTC): 2017-03-22 10:00:00
Event type: Flood

Activation reason:

Since mid-March 2017 heavy rains have affected nearly all of Peru leading to catastrophic flooding and landslides. Tens of people have lost their lives and tens of thousands are homeless. There has been significant damage to infrastructure, with many bridges down, and homes. States of Emergency have been declared in many regions due to the worst flooding in many years.
