

Dataset collection

Datasets in the agricultural domain

Description:

The Joint Research Centre supports the implementation of the Common Agricultural Policy (CAP) of the European Commission through technical and scientific work. The datasets published are produced from the activities on Monitoring Agricultural Resources (MARS), including the MARS Crop Yield Forecasting System. Data and other resources are published on the AGRI4CAST resource portal available at the AGRI4CAST Toolbox: <http://agri4cast.jrc.ec.europa.eu>
