JRC Dataset

Gypsum plaster (CaSO4 beta hemihydrates); technology mix of natural gypsum (45%) and gypsum from flue gas desulphurisation (55%); production mix, at plant; grinded and purified product (Location: DE)

Description:
The data set covers all relevant process steps / technologies over the supply chain of the represented cradle to gate inventory with a good overall data quality. The inventory is mainly based on industry data and is completed, where necessary, by secondary data. Technical Purpose: Standard mineral product used as bonding agent and moulding in the building industry according to the applied technology. Geographical Representation: DE
