JRC Dataset

LF422 - ICS economic output per unit of ICS area (LUISA Platform REF2014)

Description:
The industrial/commercial/services (ICS) economic output per unit of ICS area is the ratio of the Gross Value Added (GVA) of the industrial, commercial and services sectors by the industrial, commercial and services land use, and it is expressed as million EUR per hectare. The level of detail of this indicator is per NUTS0 and NUTS2.

Contributors:
- Lavalle, Carlo carlo.lavalle@ec.europa.eu
- Batista, Filipe filipe.batista@ec.europa.eu
