JRC Dataset

UI - Average travel distances (LUISA Platform REF2014)

Description:
Modelled average travel distances in 2010 and 2050 according to LUISA projections and a spatial interaction model. The results are based on a number of simulation-specific assumptions but are instrumental in informing on the relative potential for sustainable urban transport.

UI - Average travel distances (FUA)
The compressed zip file contains the average travel distances, expressed in meters, for Functional Urban Areas (FUAs) for 2010 and 2050. The data is stored in csv format.
