

JRC Dataset

Small punch tensile/fracture test data for S355J2+N n material at -196 °C and a displacement rate of .005 mm/s

Description:

A data collection created at the JRC in the scope of a co-operation between TNO and JRC to determine the capacity of the small punch tensile/fracture testing procedure to qualify the performance of grade S355J2N structural steel.
